

# → PORTS OF THE FUTURE POWERED BY SPACE

Funding up to €200K per Activity  
Deadline: 31 May 2020

## → SPACE FOR PORTS OF THE FUTURE

The European Space Agency is offering technical support and funding to companies developing innovative services and solutions addressing the following:

- The evolution of the port ecosystem to adapt to the changing environment including globalization, world economy, demographic growth, climate change and others,
- Services aimed at improving the operational efficiency, safety and security, environmental sustainability, connectivity and energy efficiency,
- Services that benefit from one or more space assets (including SatNav, Satcom, SatEO, Human SpaceFlight Technologies). The space assets shall represent a clear added value for the considered services and do not need to be limited to ESA's or European space assets.

The following scenarios have been identified as key focus areas:

- Port automation
- Connected ports
- Port infrastructure improvement
- Port safety and security
- Unmanned solutions
- Environmental impacts and energy efficiency
