

→ GREEN BUILDING SERVICES POWERED BY SPACE

Funding up to €200K per Activity
Deadline: 27th May 2020

→ GREEN BUILDINGS SERVICES POWERED BY SPACE

The European Space Agency offers support to companies for business case assessment and development of space enabled services: to construct and manage new buildings which create positive impacts on climate and environment or to renovate existing infrastructure following a circular built environment philosophy.

→ WHAT WE LOOK FOR

- ✓ Motivated teams with business and domain expertise
- ✓ Attractive market opportunities and customer engagement
- ✓ Commercially viable service concepts
- ✓ Technically feasible solutions enabled by space

→ ADDED VALUE OF SPACE

Targeted services include (but not only): efficient use of energy, water and other natural resources, monitor of air quality, (up)recycling, site selection, planning 'green' neighbourhoods. Such services need: meteorological information, high resolution maps and imagery, accurate positioning for location based services and robust and global communication. Earth observation, satellite navigation and satellite communication enable these capabilities.
